

Saïd Chaoui

Data Analyst & Dataiku Platform Engineer

Paris, France · Orange Wholesale International since 2023 · ISEP engineer

www.saiverse.fr

projects, demos & contact

Over three years on Dataiku at Orange Wholesale International, including more than a year as a DSS administrator. I manage the instance, lead the Automation Node setup and develop our internal Dataiku plugins. Before that, I spent two years building data pipelines and business applications on the platform as a data project manager.

PROFESSIONAL EXPERIENCE

Data & Platform Engineer · Dataiku DSS Administrator

Since Oct 2025

Orange Wholesale International, Paris · fixed-term contracts

- **Instance administration:** users, groups and permissions, connections, LLM Mesh, code environments, scenarios and licences on DSS 15; recurring audits scripted with the Dataiku Python API.
- **Automation Node rollout:** leading the project from design to go-live: Design and Automation architecture, permission model, choice of pilot projects, migration order based on usage logs, deployment guide for designers.
- **Plugin development:** from project-standards rules that check projects before deployment to complex webapps (Vue and Vite front end, Flask backend), such as OWIsMind, an AI assistant that queries business data in natural language.
- **Platform cleaning and monitoring:** clean-up of inactive projects and app instances; LLM usage and cost dashboards (LiteLLM, Dash/Plotly).
- **Instance migration:** checked that projects and access rights carried over correctly and supported users through the switch.

Data Project Manager (apprenticeship)

Sep 2023 to Sep 2025

Orange Wholesale International, Paris

- **CX Cockpit:** CX reporting pipeline and application used by ~50 people; data refresh cut from ~3 days to ~15 minutes (Dataiku).
- **Business applications:** operational dashboards and data-access tools on telecom data, running in production (Python, Dash, SQL, REST APIs).
- **CX AI Assistant:** semantic search assistant over customer satisfaction surveys (RAG, embeddings, LLMs).
- **Process automation and BI:** Outlook to SharePoint workflows (Power Automate) To Dataiku, Power BI reporting.

OTHER EXPERIENCE

Saiverse: personal full-stack products (SaiGet, Equiverse)	ongoing
Junior ISEP: project manager on client engagements	2022 to 2023
Chateau de Versailles spectacles : Seasonal receptionist	2022 to 2026

SKILLS

Dataiku platform

DSS 15 administration · Automation Node and Deployer · scenarios · LLM Mesh · code environments · Python and REST APIs ...etc.

Plugins and webapps

Dataiku plugin development · Vue · Vite · Flask · FastAPI · Dash/Plotly Standards and Dash webapps

Data and AI

Python · SQL · PostgreSQL · Pandas · RAG · LLM agents

Operations

API-driven audits · usage and cost monitoring · deployment rules · technical documentation

DATAIKU CERTIFICATIONS

Core Designer · Advanced Designer · Developer · ML Practitioner · MLOps Practitioner

EDUCATION

Engineering degree (Master's level), data science
ISEP, Paris · 2022 to 2025

Exchange semester, cybersecurity
UWTSD, Wales (UK) · 2025

Preparatory classes (TSI)
Lycée du Hainaut · 2020 to 2022

Baccalauréat STI2D
Lycée Chaptal · 2019

LANGUAGES

French, Arabic, Kabyle: native
English: B2 (TOEIC, IELTS)
Spanish: B1
